A Wheel Horse36 Rear Discharge Mowerfor Classic Garden TractorModel No. 78305 7900001 & UpOperators ManualIMPORTANT: Read this manual carefully. It contains information about your safety and the safety of others. Also become familiar with the controls and their proper use before you operate the product.IntroductionWe want you to be completely satisfied with your new product, so feel free to contact your local Authorized Service Dealer for help with service, genuine replacement parts, or other information you may require. Whenever you contact your Authorized Service Dealer or the factory, always know the model and serial numbers of your product. These numbers will help the Service Dealer or Service Representative provide exact information about your specific product. You will find the model and serial number plate located in a unique place on the product as shown below. The warning system in this manual identifies potential hazards and has special safety messages that help you and others avoid personal injury, even death. DANGER, WARNING and CAUTION are signal words used to identify the level of hazard. However, regardless of the hazard, be extremely careful. DANGER signals an extreme hazard that will cause serious injury or death if the recommended precautions are not followed. WARNING signals a hazard that may cause serious injury or death if the recommended precautions are not followed. CAUTION signals a hazard that may cause minor or moderate injury if the recommended precautions are not followed.1Two other words are also used to highlight information. Important calls attention to special mechanical information and Note emphasizes general information worthy of special attention. The left and right side of the machine is determined by sitting on the seat in the normal operators position.m28311. Park the machine on a level surface, disengage the power take off (PTO), set the parking brake, and turn the ignition key to OFF to stop the engine. Remove the key. Turn the front wheels fully to the left and raise attachment lift lever all the way to the latched position; refer to tractor Operators Manual. Open front and mid-mount hitches by pushing release button and moving lock handles forward (Fig. 1).4.Slide the mower under the chassis from the right side and align attachment lift with slot in center lever bar (Fig. 2). Straighten the front wheels, turn Dial-A-Height knob counterclockwise, all the way, and lower the attachment lift lever to the mounting position; refer to tractor Operators Manual. Place attachment lift pin into slot in center lever bar and secure with 3/4 (19 mm) washer and hairpin cotter (Fig. 2).15.2.6.3.22 43 3 1 3 Figure 2 4 Figure 11. Front hitch 2. Mid-mount hitch 3. Release button 4. Lock handlem23124m28241. Attachment lift 2. Slot-center level bar3. Washer 4. Hair pin cotter4.Assembly7.Rotate front mounting shaft so fork faces up and align so spacers are between mid-mount hitch plates (Fig. 3). Lift mower with attachment lift and guide fork to capture hitch rod (Fig. 3). Close mid-mount hitch lock handle.5 410. Remove hairpin cotters from trunnion and bottom of yoke (Fig. 5). 11. Unlatch and remove locking clevis pin that secures yoke assembly to clutch shaft. Pivot yoke out and forward to remove from clutch shaft and engagement plate (Fig. 5). 12. Place belt in inside pulley groove (Fig. 5). 13. Assemble yoke and engagement plate and attach locking clevis pin, trunnion and hairpin cotters to secure (Fig. 5).8.1 1 2 3 Figure 31. Front mounting shaft 2. Fork 3. Spacer 4. Mid-mount hitch plate 5. Hitch rod3m28252 5 4376 1m34439.Remove the two wing nuts and belt cover from the tractor (Fig. 4).1. 2. 3. 4. Hairpin cotter Trunnion Engagement plate Locking clevis pinFigure 55. Yoke 6. Clutch shaft 7. Inside groove214. Place pulley assembly into front hitch and lock by moving latch rearward (Fig. 6).2 Figure 46. Belt cover 7. Wing nut1 m253423 1m2810Figure 61. Pulley assembly 2. Front hitch 3. Latch5Assembly15. Route belt around V and flat pulleys and loop over center mower spindle, top pulley.(Fig. 7). 16. Check that spacer is on shaft and install belt cover with rod in hole. Secure with locknut (Fig. 7). 17. Turn knob counterclockwise to tighten belt (Fig. 7). Tighten until there is 1 (26 mm) belt movement between engine clutch and idler pulley when slight pressure is applied to the belt.Front-to-Rear Blade SlopeCheck the front-to-rear blade slope any time you install the mower. Before checking the slope, set air pressure in the front and rear tires to 12 psi (.85 kPa). If the front blade tip is not 1/81/4 (47 mm) lower than the rear blade tip, adjust the blade slope using the following instructions: 1. Park the machine on a level surface, disengage the power take off (PTO), set the parking brake, and turn the ignition key to OFF to stop the engine. Remove the key. Adjust height-of-cut lever on mower to the middle of the range and lower attachment lift. Carefully rotate blades so they are facing front and rear (Fig. 8). Measure between the tip of the front blade (Fig. 8) and the tip of the rear blade to the flat surface. If the front blade tip is not 1/81/4 (47 mm) lower than the rear blade tip adjust rear adjustment link.2 Frontm28332.3 4 5 6 Figure 71. 2. 3. 4. V pulley Flat pulley Upper mower pulley Spacer 5. Belt cover 6. Locknut 7. Knob3.7 1 2m28234.18. Install belt cover (Fig. 4).134 Figure 81. Blade front to rear 2. Measure front blade tip 3. Measure rear blade tip 4. Measure here46Assembly5.To adjust front-to-rear blade slope turn locknut on rear adjustable link (Fig. 9). Note: To raise the front of the mower, turn locknut clockwise, to lower front turn counterclockwise.Transport Height AdjustmentTransport height is adjusted to stabilize the mower in the up, locked position. 1. Raise attachment lift lever all the way to the latched position. Check if bumpers, on rear of mower draft bars contact under footrests. Adjust lift chain by turning trunnion on eyebolt in rear hole of tractor lift (Fig. 10). Turn trunnion clockwise to raise or counterclockwise to lower mower. Transport level stops are normally in the bottom of the slot, however they can be adjusted up for side-to-side level when extra weight from a grass catcher is on one side (Fig. 10).12.23.m3499Figure 91. Adjustable link 2. Locknut123 Figure 101. Bumper 2. Trunnion 3. Leveling boltsm28137AssemblyRemoving the Mower1. Park the machine on a level surface, disengage the power take off (PTO), set the parking brake, and turn the ignition key to OFF to stop the engine. Remove the key. Remove the two wing nuts and belt cover from the tractor (Fig. 11).4. 5.Remove hairpin cotters from trunnion and bottom of yoke (Fig. 13). Unlatch and remove locking clevis pin that secures yoke assembly to clutch shaft. Pivot yoke out and forward to remove from clutch shaft and engagement plate (Fig. 13). Remove belt from pulley (Fig. 13). Assemble yoke and engagement plate and attach locking clevis pin, trunnion and hairpin cotters to secure (Fig. 13).2.6. 7.21 2 2 Figure 114. Belt cover 5.
